About ClassX

ClassX is an IT company that develops high performance, reliable software and complex systems for graphics content management. With more than 20 years experience, the technology developed by our team of engineers has provided solutions to meet the needs of more than 1000 customers in many countries. TV stations, Broadcasters, Government Organizations, Universities, News Agencies, Betting Channels and more are among our clients.

CoralCG

Imagine the 3D of your dreams. Turn your ideas into concrete, robust broadcast graphics. Innovation is in front of your eyes.

CastaliaCG

The smoothest definition for your graphics, the easiest approach to animation. Ever.

MoreCG

The fastest path to broadcast graphics. Squeeze the power out of your pixels. Creatively.
**Powerful Content Graphics Playout**

**LiveBoard v6**

The brilliant playout for your live graphics, now pushed even further with an all-new user interface and tremendous features. Innovation on every level.

- A complete customization of the user interface.
- An incredible 4K playback, cutting-edge images, media processing and first class 3D DVE effects with Picture in Picture.
- Powerful layout tools: Snap to object, smart alignment, re-positionable graphics templates into 3d space and more.
- With multiple output devices, you can preview, edit and play your live graphics just about everywhere.
- Template and plugin are connected as never before. Send events when your plugin reaches a specific status.
- New trashcan with history and undo, vertical styled text roll, ScreenCapture plugin, Script object interface and counting. Work with your graphics at a whole new level of detail, speed, and responsiveness.
